FIXATION INSTRUCTIONS

Technical characteristics

- Flat tubes dimension 70x11 mm
- Pipes distance 11 mm
- Round collectors 38 mm
- Mains electricity supply: 230 V AC, 50Hz
- Class 2, IP 34

Standard equipment

- Kit of 4 brackets

Functions

Electronic thermostat with digital temperature regulation. The towel warmer has five functions:

- **Comfort mode:** the chosen temperature is regulated by the remote control
- **Night mode:** the electric towel warmer is regulated at 2°C below comfort temperature
- **Pilot wire mode:** the electric towel warmer can be adjusted remotely through a central electric radiator regulation system (mode available only in homes fitted with such a system)
- **Timer mode:** using the remote control, the on and off times of the towel warmer can be programmed hour by hour for the seven days of the week
- **Two hour override function:** when this function is activated, the radiator operates at maximum power for two hours to heat the room rapidly.
- **Freeze prevention function:** when the dial is on minimum, the towel warmer comes on automatically when room temperature drops below 7°C.

Electric installation

- The radiator must be installed outside zone 1 (bathroom)
- The switch/electronic control must be in zone 3 (bathroom)
- For safety reasons, the radiator must not be installed beneath a mains socket
- Turning a towel warmer by 180° is not possible
- Every towel warmer has to be installed frontally, and the thermostat has to lie on the lower-right position

Special version

- Mirò hot water: available
- Chromed version: not available
- Coloured version: available
